3. Programme Background

The Agriculture Department, Government of Punjab, Pakistan has initiated a project titled “Establishment of Model Farms Linked with Improved Supply Chain and Value Addition” with a total cost of Rs. 3,261.19 Million for four (4) years (2017-18 to 2020-21). Main objective of the project is to establish model farms, producing horticulture products of best quality and enhance exports by 30% by the year 2020-21, especially in the high-end markets. The specific objectives of the project are:

- i. Export promotion by addressing constraints of SPS and WTO,
- ii. Development of supply chain infrastructure,
- iii. Incentive structure for private sector,
 - a) Soft interventions comprising of capacity building services and certification audit for all the components of supply chain i.e. Farm Level, Processing Level, Logistic companies and traders / exporters.
 - b) Hardware interventions comprising of provision of machinery and equipment to improve quality of the produce.
- iv. Establishment of farmers and marketing linkages,
- v. Facilitate group marketing and business clusters for developing economies of scale.

One of the key components of the project is the Development of Supply Chain Infrastructure, offering a wide range of customized grant products to all the actors, across the target value chains, including input suppliers, farmers, farmer enterprise groups, associations, processors, transporters, cool-chains, exporters, etc.

4. Purpose

EMFP seeks Expression of Interest (EOIs) from relevant players such as progressive farmer or farmer group, processor, exporter and traders associated with respective value chains in selected horticulture value chains of Punjab. The purpose of this document is to present an outline for an initiative under EMFP approach and strategy, which focuses on processing of horticulture produce, manufacturing unit/facility, as a profitable agribusiness activity by EMFP, in Punjab.

5. Background

Pakistan’s economy is based on agriculture and there is a huge potential in the exporting these produce, both fresh and value added, into the international markets. Although, the quality of these produces may be good at the farm level but when it comes to processing, it lacks the minimum standards required to sell in international markets. Current processors in Pakistan, apart from few big processors, are mostly catering to the low-end segment owing to its poor quality and non-adoption of International Quality Standards. Research has established the fact that to raise the quality standard, there is lot to be done in terms of training and awareness of the managers and workers of these processing facilities.

The potential of the horticulture sector to succeed in premium markets can be materialized with the adoption of international best practices, processing standards, food safety certifications, and better packaging, storage, marketing and branding techniques. At present, there are number of processing facilities that

require different international export certifications. These certifications are some of the basic required compliances in global market for any type of processed food items exports. They operate as ensuring tools for quality, food safety and contamination issues, and allow exporters to grab more market attention and potential sales from international buyers.

6. Objectives, Purposes and Priorities

The overall objectives of the project's grant fund are to:

- Provide attractive investment incentives for the value chain players and SMEs to participate in the selected value chain activities.
- Support value addition of selected Horticulture commodities through investments by progressive farmers and small and medium level enterprises along the value chain to facilitate growth in the sector.
- Promote the practical adoption of new technologies and links between private sector, producers and other stakeholders for productive partnerships that leads to accelerated Hortibusiness development.

7. Nature of Funding

This grant support aims to provide assistance for up scaling, strengthening and building on already existing Horticulture networks (such as mango, citrus associations, cooperatives and other similar registered platforms). Examples of possible activities include establishment of common facility centers, on-farm & off-farm cold storages & pack-houses, small scale processing etc.

8. Area of Operations

Such processing facilities/units shall be installed in the province of Punjab, which are involved in processing of the following selected value chains (fresh and value added) will be eligible to apply:

1. Mango
2. Citrus
3. Potato
4. Vegetable

9. The Grant Offering

9.1 Invitation to Apply for Matching Grants

The Expression of Interest (EOI) has been launched to invite applications from relevant players such as progressive farmers of farmer group, processor, exporters and Traders associated with targeted horticulture value chains of Punjab. The purpose of this document is to present an outline of the initiatives under EMFP approach and strategy, which focuses on processing of horticulture produce, manufacturing unit/facility, as a profitable Horti-business activity by EMFP, in Punjab

- Force majeure shall mean any unforeseeable exceptional situation or event beyond the Parties' control which prevents either of them from fulfilling any of their contractual obligations, is not attributable to error or negligence on their part (or the part of their contractors, agents or employees), and proves insurmountable in spite of all due diligence. Defects in goods and services or delays in making them available, labour disputes, strikes or financial difficulties cannot be invoked as force majeure. A Party shall not be held in breach of its contractual obligations if it is prevented from fulfilling them by force majeure. The Party faced with force majeure shall inform the other Party without delay, stating the nature, probable duration and foreseeable effects of the problem, and take any measure to minimize possible damage

10.6.7 Governing Law

- The governing laws of the Program and the contract thereto shall be laws of Pakistan (where Federal laws are applicable) and laws of Punjab (where provincial laws are applicable). Moreover, the entire EOI Document shall be construed in the light of these Rules.

10.6.8 Dispute Settlement

- The Parties shall do everything possible to settle amicably any dispute arising between them during implementation of the Contract. To that end, they shall communicate their positions and any solution that they consider possible in writing, and meet each other at either's request. A Party must reply to a request for an amicable settlement within 30 days. Once this period has expired, or if the attempt to reach amicable settlement has not produced agreement within 90 days of the first request, each Party may notify the other that it considers the procedure to have failed.
- In the event of failure to reach an amicable agreement, the dispute may, by common agreement of the Parties, be submitted to conciliation by appropriate persons or agencies acceptable to both Parties. If no settlement is reached within **90 days** of the opening of the conciliation procedure, each Party may notify the other that it considers the procedure to have failed.
- In the event of failure of the above procedures, any of the Parties can submit the dispute to the Arbitration in accordance with the law of Pakistan.

11. Application Evaluation Criteria

11.1 Evaluation Process

Applicants shall submit their grant applications on the standard 'Grant Application Form' provided in Annex A. Grant applications will be received in the office of Project Coordinator, Establishment of Model Farms Project, Department of Agriculture, Government of the Punjab. Grants Management Committee (GMC) will review and evaluate the applications in the light of clearly defined evaluation criteria. If an applicant applies for grant in more than one stream at a time. The successful Grant Shall be awarded under one stream only.

Applications will be reviewed by the GMC to ensure that they are complete and that the required supporting documents are attached. Applicants may be requested to provide any missing or additional information that may be required for verification. Verification of the attached documents will be carried out at every stage to assess the correctness of the provided information. If required, field visits may also be carried out at project's site or other relevant locations for verification of the provided information. Provision of wrong information will lead to rejection of grant application and may also result in a ban on the applicant for applying for any other grant under this program.

The Evaluation team may also collect information from independent sources to verify the information provided by the applicant. Specific activity in this regard may include getting quotations for machinery, equipment that has been requested to be financed by the grant.

11.2 Key Evaluation Considerations

Grant applications will be evaluated in the light of the following key considerations.

- i. Actual needs of the applicant will be assessed in the context of the overall business proposition, the potential value addition of the grant and an evaluation of the actual developmental needs of the business. This will include verification of the actual need of the business and the cost of the requested machinery and equipment.
- ii. It will also be assessed if the applicant possesses all other machines/systems that are required to make the requested machine operational and useful for the business. The presented need for the requested machine will not be evaluated in isolation but in the context of overall production system of the applicant.
- iii. If an applicant applies for grant in more than one stream at a time. The successful Grant Shall be awarded under one stream only.

11.3 Evaluation Score Distribution

Evaluation of the grant applications received against this EOI will be carried out as per clearly defined criteria. Each applicant will be assigned points against all the evaluation factors. Total points of each applicant will be calculated by adding the points scored against all the individual factors. Highest scoring applications will be approved for grants; in accordance with the number of grants available for each sector. The decision of Project Steering Committee in this regard will be considered final.

How to Apply

Step 1 – Review Program Information

The first step of applying for grants under this announcement is to review the program objectives and eligibility criteria described in this document and also available on the program website at www.emfp.org.pk as well as the website of the Agriculture Department www.agripunjab.gov.pk

Step 2 – Submission of Expression of Interest (EOI)

The interested applicants, who meet the eligibility criteria and their proposed project is in line with the EMFP Project's objectives, should prepare and submit an expression of interest (EOI), as per format provided in Annex A, to **Project Director, Establishment of Model Farms Project at 1st Floor, Agriculture Marketing Building Agriculture House, 21-Davis Road Lahore.**

This Call for EOI will remain open till 1700 hours, 30th October, 2020. EOIs **must reach** EMFP by the mentioned deadline. **EOIs received after the closure of Call will NOT be entertained.**

Step 3 – EOI Evaluation

Review, assessment and final decision on the EOI shall be made by relevant authorities. Applicants whose EOIs are evaluated successful, will be informed through a letter/email. This invitation to submit a complete business proposal will NOT be an indication that the proposed project has been approved. Since only shortlisted applicants will be contacted; therefore, in case any applicant does not hear from EMFP within six weeks after the submission of EOI, it would mean that their EOIs were not shortlisted for the next stage of application process. The results shall be notified and uploaded on the websites www.emfp.org.pk and www.agripunjab.gov.pk.

All the applications will be reviewed by the Grants Management Committee and will be subject to the final approval of PSC. All the applicants will be notified of final decision on their application. The successful applicants will be provided guidance on next steps including signing of an appropriate grant agreement in accordance with findings of capacity assessment / pre-award review.

Grievance Redressal Committee, Agriculture Department, Government of Punjab

An effective mechanism for processing of grant applicants' complaints will be available. The grievances if any may be addressed to the Chairman Grievance Redressal Committee within 10 days after the notification of results/successful candidates. The following committee has been constituted to address the complaints of the applicants:

- Special Secretary Agriculture (Marketing) - (Chairman)
- Deputy Secretary (Planning), Agriculture Department (Member)
- Director Head Quarter (Extension) (Member)

All the complaints may be forwarded to **Special Secretary Agriculture (Marketing), 21 – Davis Road Lahore.**
Tel: 042-99204229 Fax: 042-99204224 Email: ssampunjab@gmail.com

Other Award Steps: Survey, Grant Agreement and Disbursement Mode

- Before making an award, the project will determine whether the applicant has the capacity to successfully perform all the grant activities with adequate management, financial and administrative oversight. This is called making a “responsibility determination”. The means to determine responsibility may vary depending on the nature of the grant and applicant.
- After all the above mentioned due diligence is complete, EMFP will sign an appropriate grant agreement with the successful applicants.
- Grant funds will be disbursed in accordance with EMFP’s rules and regulations, which will be included in the grant agreement.
- EMFP reserves the right to conduct financial reviews or audits and to otherwise ensure the adequate accountability of organizations expending grant funds.
